CAASPR National Competency Profile Surveys – BC Draw Winners

Thank you to all our registrants who participated in our national alliance's National Competency Profile surveys for the professions of audiology and speech-language pathology! BC will benefit from among the highest participation rates across the regulated jurisdictions.

All participating survey respondents earned 2 credits towards their Continuing Competency Credit (CCC) record, and as an added incentive, those who responded to the survey had an opportunity to enter a draw for a \$250 credit towards their next registration renewal fee.

I'm happy to announce the following lucky registrants selected from participating audiologists and speech-language pathologists registered in BC:

- **Sydelle Murphy, RSLP**
- **Susan Robbins, RSLP**
- **Phoebe Wong, RAUD**

Congratulations!
